SUMMARY

Recent B.Tech graduate in Computer Science, passionate about Python development and project management. Skilled in Django, full-stack applications, and coordinating projects in Agile environments. Eager to apply technical Python expertise alongside project coordination skills to contribute meaningfully to teams. Committed to continuous learning and delivering quality work in both development and team coordination.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, HTML, CSS

Backend & Web: Django, REST API, Bootstrap, SQL, MySQL, Database Design

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC, System Design (Basic)

AI & Data: Numpy, Pandas, NLP, Sentiment Analysis, Generative AI, Prompt Engineering, Artificial Intelligence

Tools & Frameworks: Git, GitHub, Jira, Asana, Trello, Agile

Soft Skills: Project Management, Stakeholder Communication, Event Planning, Time Management

EXPERIENCE

Event Coordinator Intern | Incredible MICE, New Delhi

March 2026 – May 2026

- Successfully coordinated and executed a high-profile corporate event for Niva Bhupa at Jaipur, managing all logistical aspects from planning to execution
- Managed stakeholder communication across multiple departments, ensuring alignment on event objectives and deliverables
- Handled vendor management and budget discussions, negotiating contracts and optimizing costs within approved budget parameters
- Maintained detailed spreadsheets and tracking documents for event planning, timelines, vendor details, and budget allocation
- Applied analytical thinking to identify potential risks and developed contingency plans to ensure seamless event execution

Project Management Associate Intern | Excelerate (Virtual)

June 2026 – June 2026 (Current)

- Developing and designing experiential internship programs as part of Excelerate's Project Management Associate internship. Collaborating with global team to plan project cycles, create internship themes, and design structured briefs with weekly deliverables. Utilizing project management tools for timeline visualization, team collaboration, and project planning. Completed 2 weeks of deliverables focusing on project planning, team coordination, and real-world problem-solving.

PROJECTS

DSA Instructor Chatbot | HTML, CSS, JavaScript, API Integration

- Built interactive chatbot frontend that integrates with Google Gemini API to answer DSA-related questions
- Implemented input validation and error handling to ensure quality user experience

Django Tweet Application | Django, User Authentication, Database Design

- Developed full-stack web application with user registration, login, and tweet creation features
- Implemented CRUD operations and ensured users can only edit/delete their own posts
- Built responsive UI using Bootstrap and Django templates

Twitter Sentiment Analysis | Python, NLP, Artificial Intelligence

- Built NLP pipeline to analyze tweet sentiment (positive/negative/neutral)
- Trained and compared multiple AI models for classification
- Created visualizations to show sentiment distribution and trends

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Uttarakhand Technical University (UTU), Haldwani | Expected Graduation: 2026

CERTIFICATIONS

- Project Management Certification – LearnTube.ai (May 2026)
- Google AI Learning Path (May 2026) – Use AI Responsibly, Discover the Art of Prompting, AI Essentials - Maximize Productivity With AI Tools
- GenAI Mastermind – Codekaro (Dec 2025)
- Artificial Intelligence Micro-Certification (AIC) – Product School (Apr 2026)
- AI Foundations Associate – Oracle University
