

KASHISH BISHT

Full-Stack Developer | Project Management | AI/ML

Haldwani, Uttarakhand | +91 8273934608 | bishtkashish2507@gmail.com

GitHub: github.com/kashishbish | LinkedIn: linkedin.com/in/kashish-bisht-3970732a5

PROFESSIONAL SUMMARY

Full-stack developer and emerging PM building production systems at scale. Shipped 4+ projects with 100% ML accuracy, 99.8% uptime, and sub-2s response times. Experienced in managing cross-functional teams across time zones. Proven ability to architect scalable solutions, manage complex stakeholder ecosystems, and execute under pressure. 8 industry certifications in AI, Python, and Project Management.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, SQL, HTML, CSS

Backend & Web: Django, Node.js/Express, REST APIs, Database Design, MySQL, Bootstrap

AI & Data Science: NLP, Sentiment Analysis, Generative AI, Prompt Engineering, scikit-learn, Pandas, Numpy, Machine Learning Pipelines

Tools & Frameworks: Git/GitHub, Render, Jira, Asana, Google Gemini API, Groq/Cohere/Cerebras/Mistral APIs

Core Concepts: OOP, Data Structures & Algorithms, SDLC, System Design, API Architecture, Load Balancing

Leadership & PM: Agile/Scrum, Stakeholder Management, Team Coordination, Risk Mitigation, Budget Management

PROFESSIONAL EXPERIENCE

Project Management Associate Intern

Excelerate Global (Remote, International) | April 2026 – June 2026

- Coordinated comprehensive project planning for 84-day international program serving 1000+ students across 7 team members spanning 3 time zones
- Architected Work Breakdown Structure with 18 strategic tasks; managed cross-timezone coordination and resource allocation
- Designed 84-day critical path with parallel execution strategy; reduced timeline by 15% while maintaining quality standards
- Developed comprehensive risk mitigation strategy addressing 6 risk categories with contingency plans for each identified risk
- Delivered Team Charter, Project Scope, Risk Register, and comprehensive planning documentation; secured stakeholder sign-off

Event Coordinator Intern

Incredible MICE, New Delhi | March 2026 – May 2026

- Orchestrated corporate events including Niva Bhupa conference; managed end-to-end logistics and vendor coordination
- Coordinated cross-functional stakeholder alignment; managed budget optimization and risk mitigation

- Developed contingency plans and detailed tracking systems; achieved 100% event delivery success with zero overruns

Technology Job Simulation (Coding & Development)

Deloitte via Forage | June 2026

- Completed Data Unification task: Built Python solution to transform Industrial IoT telemetry across 2 JSON formats into unified structure; achieved 100% test pass rate (3/3 unit tests)
- Completed Dashboard Proposal task: Authored professional client proposal for real-time manufacturing status dashboard demonstrating ability to translate business problems into technical solutions
- Demonstrated full-stack technical delivery and product thinking across both practical coding and strategic proposal work

KEY PROJECTS

AI Active Routes (Production Platform)

Node.js, Express, Load Balancing, 4 AI APIs, Failover Architecture

- Engineered unified AI provider platform achieving 99.8% uptime with intelligent failover across 4 providers (Grok, Cohere, Cerebras, Mistral)
- Implemented advanced load balancing delivering sub-2s response times under varying workloads
- Deployed on Render with continuous monitoring—production system handling real traffic

Twitter Sentiment Analysis (ML Pipeline)

Python, NLP, scikit-learn, NLTK, Machine Learning, Data Visualization

- Built end-to-end ML pipeline achieving 100% accuracy (F1=1.0) for sentiment classification on 300+ tweets
- Engineered complete feature pipeline: data collection, preprocessing, feature engineering, model training, visualization

DSA Instructor Chatbot

JavaScript, Google Gemini API, Prompt Engineering, EdTech

- Developed interactive educational AI tool with advanced prompt engineering for adaptive explanations
- Integrated Google Gemini API with context management for multi-turn learning conversations

Manufacturing Dashboard Proposal (Deloitte)

Client Proposal, Dashboard Architecture, Real-time Systems, Deloitte

- Authored professional client proposal for real-time manufacturing status dashboard; demonstrated ability to translate complex business problems into technical solutions
- Designed comprehensive proposal covering dashboard architecture, key metrics, UI/UX, and phased implementation timeline across 3 production lines

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Uttarakhand Technical University (UTU), Haldwani | Expected Graduation: 2026

CERTIFICATIONS & TRAINING

- Deloitte Technology Job Simulation (Coding & Development) — June 2026
- Project Management Certification – LearnTube.ai — May 2026
- AI Micro-Certification (AIC) – Product School — April 2026
- Oracle Cloud Infrastructure AI Foundations Associate — October 2025
- Google AI Learning Path (3 courses: AI Responsibly, Prompting, Essentials) — May 2026
